

Lover Dearest

Marianas Trench

This place is a hole but I don't wanna go
I wish we could stay here forever alone
This time that we waste but I still love your taste
Don't let him take my place, don't just sit there Sometimes I wish you would leave me
Well, I'm not sick of you yet that is as good as it gets
I'll just hide it or I could slip into you
It's so easy to come back into you I stand for awhile and waited for words
Seemed to not hurt and struggled to try
My tongue's turning black but I'll take you back
You're still the best more or less, I guess, I guess Don't you leave me
Well, I'm not sick of you yet that is as good as it gets
I'll just say it or I could slip into you
It's so easy to come back into you It hurts me to say that it hurts me to stay
And it might be alright if you go
It hurts me to say that I want you to stay
But it might be alright if you go So leave me
Well, I'm not sick of you yet that is as good as it gets
I'll just try to hide it or I could slip into you
It's so easy to come back into you Sometimes I think
That the bitter in you and the quitter in me
Is the bitter in you and the quitter in me The bitter in you and the quitter in me
Is the bitter in you and the quitter in me
The bitter in you and the quitter in me
Is better than the both of us
