Love Rev

Israel Houghton

People dream of simple things
Like worry free water
While some of us
Complain and fuss
About things like internet connectionsA mother pleads, her baby screams
This HIV's relentless
But my new web page is all the rage
LOL, OMG, like we should totally be friendsWhat if we could see what they see
Hear what they hear
Feel what they feelGod is with us
When we are with them
When we are with them
God is with us, God is for usIf we are for them
God is for us
So be an answer, a solution
Join the love revolution
C'mon, c'mon, c'monThe sun beats down on cracking ground
No food around for miles
But I'm just sayin' it better be free I'm just sayin'
A troubled night no end in sightMosquito bites are deadly
But I have a cold stuffy nose
And my medicine just hasn't kicked in yetWhat if the I and the me
Turned into they and the we
Together we could be
The change that we all want to seeAlright, it's a love, it's a love
It's a love revolution
