

# Crush Me With Your Love

**Kate Pierson**

pinwheel in a hurricane  
squirrels in my head  
neuropathways burrowing  
cannot follow thread, thread  
lab rat roaring  
on the solarplexus  
hear me calling  
earth-screens connect us  
crush me with your love  
lasers beam me upswallow me with all you've got  
you're the north and the south  
of the magnet i have longed for  
butter in a racecar  
i can (feel|fear) atoms  
rolling deep in hot tar  
streaming live on vh1  
scattered stream of aftermarthrun towards the fire  
cling to failure, cling to past  
the squirrels never tire  
crush me with your love  
lasers beam me up  
swallow me with all you've gotof the magnet i have longed for  
crush me with your love  
lasers beam me up  
swallow me with all you've got  
you're the north and the south  
of the magnet i have longed for
