Fuck You All Goodnight

Nomy

Faces are standing in front of me
laughing making fun out of me
This is my last song
Thank you all this is about no oneFuck you all good night
I've been just fine
can someone kill the light
It just wont shinenow I know whats wrong
Everyone is gone
All by myself all night longI always wanted to be seen
so where have you been
now I'm standing here
embrace me
you could have seen my fear
you never been therenow I really know what is wrong
no one ever gonna like my songFuck you all good night
I've been just fine
can someone kill the light
It just wont shineFuck you all good night
I've been just fine
can someone kill the light
It just wont shinewhile I'm building my empire
While I'm building it up of gold
while I'm building my empire
While I'm building it up of goldI can be like you with nothing at all to do
am I alone or am i gone
now I really know what is wrong
no one ever gonna like my songSo thank you all for all of your time
You will remain and you will be fine
You will remain and everything else, but I moving onFuck you all good night
I've been just fine
can someone kill the light
It just wont shineFuck you all good night
I've been just fine
can someone kill the light
It just wont shinewhile I'm building my empire
While I'm building it up of goldSo thank you all for all of your time
You will remain and you will be fine
You will remain and everything else, but I moving on
