## Anejo

## **Burn Halo**

Have we gotten crazy? We're all fucked up in our own ways It's time to open your eyesSeem so blind and jaded Just because we're not the same We're getting used to the liesWe can't be what they wanted It changes everything Take a look at the face in the mirror Don't be another bitch in a magazine Let it go, it'll all disappear Nothing is real inside this masquerade We're all just living in a dreamIt's all overrated Nothing's worth the price you're paying If you change who you areWipe that look off your face It's okay to wonder Just don't change who you areWe can't be what they wanted It changes everything Take a look at the face in the mirror Don't be another bitch in a magazine Let it go, it'll all disappear Nothing is real inside this masquerade

We're all just living in a dreamGet lost, get lost, get lost inside yourself You're just the fool I thought you'd beTake a look at the face in the mirror

Don't be another bitch in a magazine

Let it go, it'll all disappear

Nothing is realTake a look at the face in the mirror

Don't be another bitch in a magazine

Let it go, it'll all disappear

Nothing is real inside this masquerade

We're all just living in a dreamGet lost, get lost, get lost inside yourself

Get lost, get lost

Get lost, get lost inside yourself Get lost, get lost
