Seefeel

I?m glad you found the time to ring
I just spent all day waiting
I need to know what?s happening
Well, at least we both agree
Really don?t know where to start
Did you say you met some neighbor?
I guess I?m headed for a broken heart
Why are you doing this to me?
It?s so clear, I can hear
And I?m not gonna share you with no one
Surprise, I?ve got eyes, now goodbye
How long have you had this planned?
Guess it shows how much you care
Now I understand how I just played the fool
Sure I?m gonna let you go
I was wrong to ever trust you
Don?t think that you?ll ever know
How you could be so cruel
It?s so clear, I can hear
And I?m not gonna share you with no one
Surprise, I?ve got eyes, now goodbye
