

Run Of The Company

Jebediah

Believe what you will they'll take your honesty still
It's all that we know, in everything that we say
Desperate for more it's corporate law when spirits fall
They'll own our souls.

Honoured Chairman of the Board picking the scraps off the floor I dream daily, humans are commodities

When your inside of the plan
It's everyday of our lives, born to a loss of control (control)
One day you'll see, run of the company
You don't realise till it's in front of your eyes Answering all to the man
