

Momma

Plies

Ay Homiee

Sometimes I just sit back and think homiee

What my life woulda really

Been like if it wasn't for my momma

Probably be dead or in a jam...

Probably be sittin off in a pin

I wouldn't be strong as I am and life I wouldn't understand

Probably be dead or in a jam...

Probably be sittin off in a pin

I wouldn't be strong as I am and life I wouldn't understand

Daddy left and momma stayed

And she raised ha boys showed us how to survive

When times get hard hustle when you want the thingsx you can't afford

Heres something to many times then don't ignore it without the bad the good you could'ntenjoy it

Loyalty when it's broke you can't restore it

Problems is apart of life that you can't avoid

Mama said in life everything can't be important she kept it simple when she said life was all about choices

Too many friends mama said equals too many voices in life you gotta learn how to walk before you can ride

horses I guess I wouldn't be me

If mama got an abortion

Probably be dead or in a jam...

Probably be sittin off in a pin

I wouldn't be strong as I am and life I wouldn't understand

Probably be dead or in a jam...

Probably be sittin off in a pin

I wouldn't be strong as I am and life I wouldn't understand

I neva loved a woman

As much as I love my girl she neva showered me with gifts she showed me the world she taught me things
about life

More valuable than pearls I think my daddy for haulin a... cause it made us more sterile

My momma slogan you ain't grown till ya payin ya own billsx a real man love his family and he work and he

live some things momma use to say I can hear in my ears

She told me don't call em ya friend till ya knoe who they is and if you hurt someone you love you wipe away
they tears

You lookin for love in these streets this ain't where it is and people remember you in life off the things you did
your heart go always be judged

Off the things you give she said if you got em betta neva show the world your fears this world don't wanna see
you happy they'd rather see you in tears

She said in mins you, you can destroy what you built in
Years she told me whateva you do die smart and real
Probably be dead or in a jam...
Probably be sittin off in a pin
I wouldn't be strong as I am and life I wouldn't understand
Probably be dead or in a jam...
Probably be sittin off in a pin
I wouldn't be strong as I am and life I wouldn't understand
She ain't have time to spend with us
Cause she had three jobs my brotha tried to help us out so he went out and he rob
To watch my daddy make you cry it hurt me in my heart the only way I think you madee it you beleived in God
I needed collateral on my bonds so you put up ya
House the only reason you did it cause you lovee ya child
And when thee streetsx tried to break me
You made me smilee you
Loved both of us
The same regardless how wild
I'm grown now but I still won't curse in ya house
My brother kids
You treat em all
Just like ya child when lost granny guess what you held us down
Between me and bro we hopee we made you proud
Probably be dead or in a jam...
Probably be sittin off in a pin
I wouldn't be strong as I am and life I wouldn't understand
Probably be dead or in a jam...
Probably be sittin off in a pin
I wouldn't be strong as I am and life I wouldn't understand
