

# Tilted

## Sugar

I only do these things to freak you out  
Wanted you to doubt me  
Well, I believe you, do I believe you? I try to block you out to hear myself  
I can't believe I'm thinking to myself  
Would I leave you in such suspense? I let it go and go and go  
But what you're thinking through the silence  
I really wish you understood  
A couple of words get so much mileage I never felt an urge to say a word  
Listen to the din of  
Other people closing in on me, I lay in bed And think of words that you should hear  
I fall asleep and then they disappear  
A fall from grace, from memory I hear a voice inside the silence  
Speak your peace and all's forgotten  
I hear the static on the line  
Remember how this all got started Remember, remember it's tilted  
Remember it's tilted  
Turn it tilted, I need help it's tilted  
Turn it tilted, I need help it's tilted I turn away, a minute disappears  
Shame when I don't hear  
What you're thinking, tell me what you're thinking? You take it out on me  
You're not flaking out on me, are you?  
Turn it tilted, hey wait a minute I never wanted you to be upset  
But I can see you're trying to forget  
What was said, yeah, what was said  
Don't try to hang me up again  
Don't try to hang up on me wait up Turn it tilted, oh, I need help it's  
Remember, remember, it's tilted  
Remember it's tilted [Incomprehensible]  
If thou wouldst believe, thou would see the glory of God  
I'm going to pray a prayer that's going to bless your heart  
Amen that's going to minister to you  
In the name of the Lord Jesus Christ
