

Victorious

Chris Medina

I'm on my own,on my own,in the middle in the middle of the universe
And noone's there to lend a hand,and im so so cold
I'm in the race,in the race,with nothing there's no way I'm about to lose this
Im the boss,yes gonna be first,I'll go journey that road

Chorus

There is only one life to win,one chance to win
One hill to climb,to prove that youre a champion
I'm gonna ride,no wind with the tide,does not horror,I will survive cause now
I'm on top of the world,aint no mountain I cant climb
Guess this is the final destination,im flying home victorious
I'm on top of the world,aint no mountain I cant climb
Guess this is the final destination,im flying home victorious
Im letting you know even if I fall down,I'mma get up off that get up off that
Im flying home victorious,the journey is hard sometimes I wanna give up
Imma get up off that get up off that,im flying home victorious

Ohhh im on top of the world

Im almost there,almost there

The finishing line is just a mile away

Im tired out,thirsty now,still moving on

Ive come so far,come so far,like a pyramid im way too up to go back down

I hold my faith,make no mistake,im gon get that goal

I'm on top of the world,aint no mountain I cant climb

Guess this is the final destination,im flying home victorious

I'm on top of the world,aint no mountain I cant climb

Guess this is the final destination,im flying home victorious

Bridge

Im flying home victorious,flyin victorious

I made it through against all odds

Chorus out
