Waste Of Time

Snoop Dogg

Yo, this next record right here is a dedication
This dedicated to those who've come to an end
Quit like Gladys Knight
You know neither one of us wants
To be the first one to say goodbye
So, hopefully this record will help you
Get to the conclusion, ya dig?
I love this girl but I don't know about her
As a matter of fact, I could go without her
But she got my daughter, I don't know why I bother
To try to make it work when she make it so harder
Wake up and break up and do the same thing tomorrow
I get tired of fightin', I feel no sorrow
For you to keep it movin' in that Monte Carlo
That's what I get for **** with a video model
Waste of time, waste of time, waste of time
Go your way and I'll go mine
I'm alright, I'm alright, I'll be alright
Go your way and I'll go mine
You don't love me, you just love my Doggystyle
I used to put it on yo' ****, you ain't had it in a while
Instead of crackin' smiles, you'd rather cramp a **** style
You act too wild, I won't walk you down the aisle
What you thought? Yeah, we could chill, we could talk
When I look you in your eyes I no longer see sparks
So it's best we go our separate ways and stay apart
No more me and you, boo, I done had a change of heart
You're just a
Waste of time, waste of time, waste of time
Go your way and I'll go mine
I'm alright, I'm alright, I'll be alright
Go your way and I'll go mine
Waste of time, waste of time, waste of time
Go your way and I'll go mine
I'm alright, I'm alright, I'll be alright
Go your way and I'll go mine
I'm not sayin' I don't got love for you
But I'm not in love with you
I'm not sayin', I'm not sayin' I don't got love for you

But I'm not in love with you
And it feels like such a
Waste of time, waste of time, waste of time
Go your way and I'll go mine
I'm alright, I'm alright, I'll be alright
Go your way and I'll go mine
Waste of time, waste of time, waste of time
Go your way and I'll go mine
I'm alright, I'm alright, I'll be alright
Go your way and I'll go mine
I'm cool and I ain't even trippin'
I'ma roll out with Raphael
Yeah, fo sho, I'ma roll with him
I'm cool, you go your way, I go mine
I guess I'll see ya next lifetime
See ya, wouldn't wanna be ya
