Fire on the Mountain

Rob Thomas

Fire on the mountain
Through the freeze
Save yourself
There's evil
In the garden
But you don't see it
I can tellHow do you sleep while the city's burning
Where do you go when you can't go home
How do you drink when there's blood in the water
Where do you turn when the world moves on
When the world moves on, onFire on the mountain
You can feel it
Against your skin
You're standing
By the river
Let the river
Take you inHow do you sleep while the city's burning
Where do you go when you can't go home
How do you drink when there's blood in the water
Where do you turn when the world moves on
When the world moves on
When the world moves on, on
YeahHell, I see smoke out on the horizon
Mama, get your baby, take her down to the water
I view the wind like a promise broken
I see the future but it's getting fartherHell, I see smoke out on the horizon
Mama, get your baby, take her down to the water
I view the wind like a promise broken
I see the future but it's getting fartherHow do you sleep while the city's burning
Where do you go when you can't go home
How do you drink when there's blood in the water
Where do you turn when the world moves on
When the world moves on, hey
When the world moves on,
When the world moves on,
When the world moves on,
Yeah, oh Yeah, oh yeah world moves on
That world moves on, yeah
