...And the Cheese Fell Down

Satanic Surfers

So many times when I felt down
you picked me of the ground and put me back on my feet
I had a shoulder to lean on someone who was strong
When I was fealing weak
So I did not understand that you could also need a helping hand
I'll be there to catch you You need someone when you fall down
I won't let you down again sorry that I was afraid
next time I'll be there for you like you've always
been there for me This time I'll be there for you
