Speed Wobbles

Cerebral Ballzy

Shaky, startled, erratic, harmful, winding, twisting, incessant rippingImpending doom and it's ending soon
Making way torwards my griptape tomb
Going so fast that it's bound To end
Going down hard no matter how I shred
I know that speed kills now that I've sped
And I know that it hurts now that I'm deadYet another victim
To the tempting
SPEED WOBBLESEven the greats will fall
After all
Last guy that tried to power slide died
His tale lives on but he didn't survive
Gravel on gravel death by axel
Floored by the board more pain than you can handle
