Virgo Clowns

Van Morrison

Let us free you from the pain
Let us see you smile again
Let us unlock all the chains
You're broken-heartedLet us help you to forget
Let us help you unlock it
It's not nearly time to quit
You've only startedYou gotta
Sit down, funny face
Oh let your laughter
Fill the roomLight up your golden smile
And take away all your misery and gloom
Oh let your laughter fill the room
Oh let your laughter fill the roomLet us shake you by the hand
Let us help you understand
Take your head out of the sand
And shake it free nowLet us help you to go on
We are here to lean upon
Now you know exactly just who
You want to be nowCome on
Sit down, funny face
Oh. let your laughter
Let your laughter fill the roomLight up your golden smile
Take away all your misery and gloom
Oh let your laughter fill the room
Oh let your laughter fill the roomLet us lift you up on high
See the twinkle in your eye
Raise you up into the sky
And say it's easyHey let the trumpets ring it
Oh, let the angels sing it
Let your pretty feet go dancing
Let your worn out mind go prancingAnd sit down
Oh funny face
Oh, let your laughter
Fill the roomLight up your golden smile
Take away all your misery and gloom
Oh let your laughter fill the room, come on
Let your laughter fill the roomLet your laughter fill the room
Let your laughter fill the room
Let it fill the room, oh let it fill the room

Oh let the laughter fill the room
