

Busy Bee

[Bryan Greenberg](#)

A busy baby busy bumble bee
A busy girl too busy for me
Big time so you got no time
When I was in bloom you were mine She got a schedule she got an agenda
She got a lot of money and a lot of friends too
Pack her bags when she flies away
Put me in your luggage I'm a stow away Take the pollen and run take the pollen and run
You're so busy
Take the pollen and run take the pollen and run
You're so busy
I hope you make some sweet sweet honey honey
I hope you make some sweet sweet honey honey I'm the number on your desk
No goodbyes cause you just left
I'm all alone in your home
Where you go I'll never know She reads the paper to herself
Girl of the moment continue page 12
She sips her coffee tips it back
She wears flip flops they do just that Take the pollen and run take the pollen and run
You're so busy
Take the pollen and run take the pollen and run
You're so busy
I hope you make some sweet sweet honey honey
I hope you make some sweet sweet honey honey
