Fuck the Border

Propagandhi

A friend of mine dropped me a line,
I got no money, got no job."
it said, "man I gotta run to the USA.
before she fucking came?
She skipped out of Mexico to stay alive.
but what did you do to help her
You've got a problem with her living here,
I stand not by my country,
What did the country do?
What did the people do?
Free movement for all.
but the people of the whole fucking world.
No fences, no borders.
Fuck the border. It's about fucking time
It's our culture and consumption
to treat people wi th respect.
its knee-jerk hordes.
that makes her life unbearable.
Fuck this country; its angry eyes,
Legal or illegal, watch her fucking go.
She'll take what's hers.
Watch her fucking go. Fuck th border
