

Scared

Delta Rae

Remember when you said you loved me
remember when you said that it would all work out
we packed up and we left by morning
and everything you promised, it ain't happening now And I'm swirling, softly
drifting like the cream in your coffee
and you're talking, calmly when I'm scared, to be on our own
when the thrill is gone
And I'm scared, thinking what we have done
to try to love someone
Baby, can you keep your promise
Baby, can I keep you honest
Cause I'm scared There's nothing in the sky above me
There's nothing strung below us baby, if we fall
We're caught between a spark and lightning
We're caught between forever and nothing at all And I'm sorry, I love you
but even those words are getting see-through
And I'm losing it all to this feeling, baby I'm scared, to be on our own
when the thrill is gone
And I'm scared, thinking what we have done
to try to love someone
Baby, can you keep your promise
Baby, can I keep you honest
Cause I'm scared When you say you love me (x2)
(I'm scared)
Are we ever gonna be okay?
When you say you love me
(I'm scared)
Are we ever really gonna feel safe?
When you say you love me
(I'm scared)
Is it better if i walk away?
When you say you love me Cause I'm scared, to be on our own
And I'm scared, thinking what we have done
Baby, can you keep your promise
Baby, can I keep you honest
Cause I'm scared
