

# Ten

## Down with Webster

We left behind the busy crowd  
So it seems we slow down  
Meet me with a way out through the lies  
Nowhere, going nowhere in the fake yellow light  
Blame no one  
Blame no one  
The feelings change so fast  
Safety scares them away  
I can't bring myself to say it's my own advice I need  
Nowhere and then nowhere living trapped inside the chase  
Blame no one  
Blame no one  
Blame no one  
Blame no one  
Our weakness is the same  
We need poison sometimes  
Our weakness is the same  
We need poison sometimes  
So take another drink with me  
Blame no one  
Blame no one  
Look in my eyes and  
Blame no one  
Blame no one
