

You Keep on Moving

Whitesnake

You keep on moving
Far away far away
You keep on moving
Far away far away Everyday wheels are turning
And the cry still returning Dawn will soon be breaking
The day has just begun
You put your arms around me
Like a circle 'round the sun
Dance across the seasons
To a place that no one knows
Where angels fear to tread
Dawn will soon be breaking
The day has just begun
You put your arms around me
Like a circle 'round the sun
Dance across the seasons
To a place that no one knows
Where angels fear to tread You keep on moving
Far away far away Everyday wheels are turning
And the cry still returning
Dawn will soon be breaking
The day has just begun
You put your arms around me
Like a circle 'round the sun
Dance across the seasons
To a place that no one knows
Where angels fear to tread
