Friction

Timbuk 3

We're rubbing our sticks together
Trying to heat things up now
One spark is all we need
To bring a light into this darkness

Oh, yes I see
Hey, all we need is just a little
A little bit of friction

We're gonna build a fire
Gonna set a breeze in motion
Gonna get the wind excited
Gonna sail across the ocean

We're rubbing our sticks together
Trying to heat things up now
One spark is all we need
To bring a light into this darkness

Oh, yes I see
Hey, all we need is just a little
A little bit of friction
Rub it up
Friction
