Daisies

Covey

Learning as i go
Seems that im making
Just a mess on the floor
I messed up my chance at this
Now i wish i could see you more
Im asking myself
If my chance rested fear
Im hoping for the best
But i know i should take the wheel
The sight of you resides
To leave what we knew
Just you promise me
To teach me all i know
And I'll leave you alone
Please see
I want to force my demons out
