Am I Very Wrong?

Genesis

Am I very wrong?
To hide behind the glare
From an open minded stare
Am I very wrong?
To wander in the fear
Of a never ending lie
Am I very wrong?
To try to close my ears
To the sound they play so loud
Am I very wrong?
The happiness machine
Is trying hard to sing my song
Today's your birthday, friend, everything all right
Let us our greetings to you send
Happy friend, everything all right
We hope your life will never end
Am I very wrong?
To want to steal a pin
Then I'll check that I have skin
Am I very wrong?
To want to leave my friends
And the curse of the happiness machine
Today's your birthday, friend, everything all right
Let us our greetings to you send
Happy friend, everything all right
We hope your life will never end
We hope your life will never end
They say, we hope your life will never end
(We hope your life will never end)
They say never end, never end
(We hope your life will never end)
Never end, never end, never end
(We hope your life will never end)
They say never end, no
(We hope your life will never end)
They say never end, never end
(We hope your life will never end)
Never end, never end, never end, never end
