

# She'd Never Be Me

## Lil' Mo

[Intro]Heh, I got some nerve  
Sittin' up here thinkin' about  
How it would be if I was your girl  
Things I could do for you  
Love you in ways she never knew how  
If only you could imagine  
I have to make you believe  
For real  
Cause she can never really take care of you  
She's too young in the mind  
To be there for you like a real girl should be  
That's why you call on me  
To be loving you unconditionally  
Cause...  
Anything she can do (ooh)  
I can do better  
(So much better)  
I can do anything better than she can, so...  
What kind of girl is she  
To leave her family?  
She could never be me  
Cause that's not what I would do  
No I'm not her  
I'm still loving you  
Baby, everyday, ooh baby  
(Loving you, kissing you, touching you, feeling you, hugging you)  
And remember the time that she left you  
All alone with your son  
And I came to your rescue  
Cause only I can  
(Only I can)  
Treat you like a man  
And I know you'd rather share your life with me  
Cause...  
  
Anything she can do (anything he can do)  
I can do better (I can do better)  
I can do anything better than she can (better than she can)  
She keeps coming up short

And I'm coming through  
To be everything she could never be, whoa oh  
What kind of girl is she to leave her family? (you and your son)  
She could never be me  
Cause that's not what I would do  
No I'm not her  
I'm still loving you, you  
Everyday, baby, yes I am, ooh-ooh  
(Loving you, kissing you, touching you, feeling you, hugging you)  
Sometimes I feel  
Like I'm the other woman (other woman)  
And she'll always have more you than me  
But just because she had your child  
I'm the one that makes you smile  
I'll be there for you through thick and thin  
Baby can't you see  
What kind of girl is she to leave her family?  
She could never be me, no no  
That's not what I would do  
No I'm not her  
I'm still loving you, baby  
Everyday, oh, oh  
(Loving you, kissing you, touching you, feeling you, hugging you)  
What kind of girl is she to leave her family?  
She could never be me  
That's not what I would do, oh oh oh  
I'm still loving you, ooh ooh  
Ooh, hmm, hmm  
(Loving you, kissing you, touching you, feeling you, hugging you)  
Loving you, ooh  
Man I love you
