

Give Us What We Want

Puggy

Together
Forever
We all live as one
Inside my head
Don't ask me how it's done
We don't believe in fun
Before Evil's done
Give us what we want
Give us what we want
Give us what we want
Give us what we need
Give us what we need
Give us what we need
And a new day has begun
Forever
And the light we see as one
Together, forever
Lord forgive me if I'm wrong
Give us what we want
Wouldn't you like to know
We hungry for the things
We never should have done
Forgive us where we go
You've already gone
Give us what we want
Give us what we want
Give us what we want
Give us what we need
Give us what we need
Give us what we need
