

Very Special Friend

Joe

I gotta find, I gotta find a special friend

A little bit of sexiness

That's all I need

Someone I can kick it with (oh)

Won't put no pressure on me

And when the rain comes fallin' down

Will you be there for me

I need a whole lot of loyalty

I need you down on my team

You see

I been through too much drama in my life

You see

Every chick so far's been wasted time

You see

I need someone so special in my life

I need that special friend

Chorus:

Gonna search around the... world

'Til I find that... girl

New York, Georgia, Cali 'cross the water

Gonna find my baby... girl

Precious like a... pearl

I need a very special friend

Very very very very special friend

To be my baby girl to the very end

Very very very very special friend

Special Friend

Even after all this s*** I've been through

I wanna take a chance on loving you

Call me if you feel me good girls...are you out there

But every girls been though s*** too

Don't stop love from finding you

This a call to find a ghetto star to shine

Cuz I've been through too much drama in my life

You see

This past relationship's been wasted time

You see

I need someone so special in my life

I need a that very special friend (ooh)

Chorus

I like 'em naughty, let me see you throw your hands up

If you ready lets play, if you need it call J

Get up on it, let me see you throw them phones up

So you say you ain't afraid, bring that ass on this stage

I'll do it your way if you do it my way

I need a good girl, a freak like a bad girl

Put on them hooker boots and let's role play

I'm your client, what's you price, cuz I wanna pay

Chorus

I gotta find...a special friend...I'm looking for (ooh)

(4x)
