

I Said No

Jo Lawry

Oooh

Opened up that dusty bottle
We saved too long
Thought it might still be worth drinking
But we were wrong

You said I need to ask you one thing
Before I go
And you asked if I still loved you
And I said no

And I said no
And it cut me like a knife
And I said no
And I watched all of the life drain from your eyes
When I said no

Oooh

Don't know when I lost my talent
For loving you
Cause it had already happened
Before I knew

I realised I'd made my mind up
It happened slow
Asked myself if I could change it
And I said no

And I said no
And it cut me like a knife
And I said no
I could never be your wife and shouldn't try
And I said no

Oooh

So there'll be no celebration
And there'll be no rings

We divided our belongings
And you packed your things

I said I need to ask you one thing
Before you go
Think you ever can forgive me
And you said no

And you said no
And it cut me like a knife
And you said no
Oh and I'll be sorry all my life I made you cry
When I said no

Oooh
