

This Little Girl

Cady Groves

You got your keys, but where you going?
The third degree just isn't working
Because you walked out without asking me come
And if I followed you home, would you be alone?

I checked your phone, 'coz it was beeping
Are you alone?
I know you're creepin
But if I followed you home, I hope you're alone

I'm three steps from the edge
Oh-woah
Don't push me over it
Don't you know, don't you know

Every girl is capable of murder if you hurt her
Watch out you, don't push me any further, any further
You're not the only one walkin' 'round with a loaded gun
This little girl is capable of murder 'coz you hurt her

My hands are clean, not yet a killer
Ain't I your queen
And did you tell her?
'Coz you broke down all my shoulda known betters
And then I followed you home, throwing sticks and stones

I'm two steps from the edge
Oh-woah
Don't push me over it
Don't you know, don't you know

Every girl is capable of murder if you hurt her
Watch out you, don't push me any further, any further
You're not the only one walkin' 'round with a loaded gun
This little girl is capable of murder 'coz you hurt her

Don't you know you should never treat a girl like that?
Got a good alibi, and my bag's all packed
Don't you know you should never treat a girl like that?

'Coz the next one's gonna have the hammer pulled back

Every girl is capable of murder if you hurt her
Watch out you, don't push me any further, any further

Every girl is capable of murder if you hurt her
Watch out you, don't push me any further, any further
You're not the only one walkin' 'round with a loaded gun
This little girl is capable of murder 'coz you hurt her
