

# I'll Be Good for You

\*NSYNC

I'll be good for you, ohh  
Ya'know, I'll be good for you baby, yeah I'll be good for you  
I ain't gonna take my love away  
And I will love you more girl every day  
I'll be good for you  
Baby girl, it's plain to see  
That our love was meant to be I know, you're hearts anticipating  
And my love is on your mind  
Well, don't you worry, I won't keep you waiting  
'Cause I ain't never seen a lady so fine, yeah I know you want me too, it's in your eyes they say you do  
They're telling me you'll open your heart to me, yeah  
'Cause if you want me to, I'll sacrifice my world for you  
And show you the way loves supposed to be yeah I'll be good for you  
I ain't gonna take my love away  
And I will love you more girl every day  
I'll be good for you  
My baby girl, it's plain to see  
That our love was meant to be Now I know you think, I must be faking  
I promised all these things right from the start  
So don't you rush into decision making  
'Cause I just wrote this song to tell you my heart I wanna be with you and girl there's nothing I won't do  
To make you see that this is where you should be  
'Cause baby we can do, anything you wanna do  
Girl, I wanna be a part of your fantasy I'll be good for you  
I ain't gonna take my love away  
And I will love you more girl everyday  
I'll be good for you  
My baby girl, it's plain to see  
That our love was meant to be, yeah Ohh yeah yeah yeah  
Ya'know, I'll be good for you baby I can be good for you  
Tell me, what you want to do?  
Baby girl, it's plain to see  
That our love was meant to be  
(I'll be good for you) I can be good for you  
Tell me, what you want to do?  
Baby girl, it's plain to see  
That our love was meant to be  
(I'll be good for you) I can be good for you  
Tell me, what you want to do?

Baby girl, it's plain to see  
That our love was meant to be  
(I'll be good for you)I can be good for you  
Tell me, what you want to do?  
Baby girl, it's plain to see  
That our love was meant to be  
(I'll be good for you)I can be good for you  
Tell me, what you want to do?  
Baby girl, it's plain to see  
That our love was meant to be  
(I'll be good for you)I ain't gonna take my love away  
And I will love you more girl everyday  
I'll be good for you  
My baby girl, it's plain to see  
That our love was meant to be, yeah
