Best Night Of My Life

Jamie Foxx

I'm feeling good, I'm having fun
This is the best night of my life
Girl, can I be real?
I just wanna feel on your booty, that's not a big deal
Shawty, you drinkin' on that Martini
I wanna see you in a bikini
Or better yet a thong, baby, what's wrong?
Tryin' ta tell your girls that's the purpose of this song
Ooh, I want you closer
You like a model of a poster
I wanna get ya to the car, to the crib up the stairs, to the bed
In the morning you'll be cooking us set
Ooh baby, I love the smell of your perfume
And if we were kids, I'd be breaking curfew
To stay up with you
You gon' need a scarf
Wrap your head 'cause it's gon' get wild
If we keep lovin' like this we might make a child
A daughter, a son, whichever one, girl, you're second to none
I'm feeling good, I'm having fun
This is the best night of my life
We off the Patron and both of us gone
Girl, this gon' be the best night of my life
You could've been anywhere in the world
But you're right here with me, girl
And if we go home and make love
This could be the best night of your life

So girl, let me ask you a question while we're sipping Bud
Are you going home with me after the club
That's a yes or a no, I'm just letting ya know
Where this night can go
And girl, I'm hoping you see things my way
'Cause I just want your love to stay
Tonight, tonight, tonight
I could be your bartender, tell me what you're sippin' on
Girl, I'm not a travel agent, so what you trippin' on?
You say I think I could make it happen 'cause I'm famous
Nah, I'm just tryin' ta get it cracking 'cause we faded

Get you to my crib, spend some time alone
Barely over 21, that mean you kinda grown
Um and I'm tat, tat, tatted up, come out to that bread
I'ma stack it up, where you born, baby girl, back it up
You gon' need a scarf
Wrap your head 'cause it's gon' get wild
If we keep lovin' like this we might make a child
A daughter, a son, whichever one, girl, you're second to none
I'm feeling good, I'm having fun
This is the best night of my life
We off the Patron and both of us gone
Girl, this gon' be the best night of my life
You could've been anywhere in the world
But you're right here with me, girl
And if we go home and make love
This could be the best night of your life
