

Rumba Queen

Eight to the Bar

I can see you watching
You like what you see
The way my body's rocking
You want to come dance with me

I can tell you want it
You're thinking of romance
There's no need to fight it
Come on and take a chance

Well get up the nerve boy
You know you will enjoy
A dance like nothing you've seen

I know you've been waiting
And anticipating
Your dance with a Rumba Queen

So drink a liquid courage
Loosen up that tie
Don't you feel discouraged
Like any other guy

Be stronger, be bolder
And make your way over
Let your intention be seen
All night you've been waiting
And anticipating
Your dance with a Rumba Queen

Be stronger, be bolder
And make your way over
Let your intention be seen
All night you've been waiting
And anticipating
Your dance with a Rumba Queen
