Eventually

Shades

Verse 1:
Sometimes this world can be cold
When you're on your own it's a struggle everyday
Just to be a woman with dignity
So we've got to find a way so all the world can see
That we deserve equality
And one day it can be if there's faith
Inside yourself and meChorus:
We can conquer almost anything
Show the world we can be anything
So the hopes and dreams of yesterday
And wishes that you make today come true
Eventually they do
If we can make it through
And find that strength in you
Eventually is youVerse 2:
True times they may be hard
But not to hard to take
Just a part of life we live
So keep in mind
With every day you wake
In this life we live
You get back only what you giveVerse Three:
So we have got to give it all
And all that we believe
And love because I know that weChorus:
We can conquer almost anything
Show the world we can be anything
So the hopes and dreams of yesterday
And wishes that you make today come true
Eventually they do
If we can make it through
And find that strength in you
Eventually is youBridge:
Stars up in the sky don't shine
Until they're time has come
That is why I know that we will be seen
So with you keep your head up high
And always believe there is nothing to fear

Cause I coming is near the battle is nearly won *yeah* *(echoes)*Chorus:
We can conquer almost anything
Show the world we can be anything
So the hopes and dreams of yesterday
And wishes that you make today come true
Eventually they do
If we an make it through
And find that strength in you
Eventually is youGirls I know it won't be long (eventually)
Yeah yeah yeah, I wanna conquer the world (eventually we can make it)
My sisters, I love all my girls (eventually in you)
(repeat till fade)
