Nonexistence

Six Feet Under

I'm gonna cut out my eyes and rip off my tongue
I should just puncture my ears, I'm not alive now
I'm gonna cut out my eyes and rip off my tongue
I should just puncture my ears, I'm not alive nowI'm gonna cut out my eyes and rip off my tongue
I should just puncture my ears, I'm not alive now
I'm gonna cut out my eyes and rip off my tongue
I should just puncture my ears, I'm not alive nowWe are the unborn
A child in the womb
Sheltered from the stormI'm gonna cut out my eyes and rip off my tongue
I should just puncture my ears, I'm not alive now
I'm gonna cut out my eyes and rip off my tongue
I should just puncture my ears, I'm not alive nowI'm gonna cut out my eyes and rip off my tongue
I should just puncture my ears, I'm not alive now
I'm gonna cut out my eyes and rip off my tongue
I should just puncture my ears, I'm not alive nowWe are the unborn
A child in the womb
Sheltered from the stormWe just want the truth now, we just want to know
We just want the truth now, we just want to know
We just want the truth now, we just want to know
We just want the truth now, we just want to knowI'm gonna cut out my eyes and rip off my tongue
I should just puncture my ears, I'm not alive now
I'm gonna cut out my eyes and rip off my tongue
I should just puncture my ears, I'm not alive nowI'm gonna cut out my eyes and rip off my tongue
I should just puncture my ears, I'm not alive now
I'm gonna cut out my eyes and rip off my tongue
I should just puncture my ears, I'm not alive nowWe are the unborn
A child in the womb
Sheltered from the stormWe just want the truth, I'm gonna cut out your eyes
We just want the truth and rip out your tongue
We just want the truth, I'm gonna cut out your eyes
We just want the truth and rip out your tongueWe just want the truth, I'm gonna cut out your eyes
We just want the truth and rip out your tongue
We just want the truth, I'm gonna cut out your eyes
We just want to know
