

# Let Your Body Cry

[Elisabeth White](#)

Sitting in my car  
Driving a long night  
Feeling wasted  
Down to the bones  
My mind is a mess  
No one could care less  
Wanna talk about it

So listen.....

Let your body cry  
Live another life  
When you're down and over  
Let your body cry

Don't you realize  
When you're down and over  
To blind to see  
What I am missing  
To young to know  
And to old to grow  
Silence is so loud  
It's getting kind of deafening  
Wanna talk about it

So listen.....

Let your body cry  
Live another life  
When you're down and over  
Let your body cry  
Don't you realize  
When you're down and over  
Your time has come to let it out

Instead of tranquilizing
