

Seeing Eye Dog

Helmet

Nobody was paying attention
Man, you had the world on the run
Everybody jump, everybody swoon
Everyone was whistling your tune Now you're dying to make it last
But karma's burning fast Blinded by the fireworks
Hanging on your every word
Could not resist, did you feel like Jesus?
Gone too far, now you are religious Are you tired? Are you sick?
Karma's burning quick
Now you're dying to make it last
Karma's burning fast, shit
