

Everything Was Nothing (feat. Benji Clements)

Hugh Hardie

Ooh, yeah

I think I wanna run away
I think I wanna leave
I think I wanna make or break
Getting lost in the breeze

You keep on telling me that your love is real
You keep on promising that you'll never leave
But I can't feel it, I can't feel it anymore
And I can't do this, cuz' I can't breathe here anymore
I still remember all those things you said to me
Is it too much now to ask for some clarity?
I can't believe it, can't believe how you treated me
No, I won't do this, I won't wait here endlessly

I think I wanna run away
I think I wanna leave
I think I wanna make or break
(Make or break)
Getting lost in the breeze
(Yeah)

And I can't do this

I think I wanna run away
(Run away, yeah)
I think I wanna leave
I think I wanna make or break
(Make or break)
Getting lost in the breeze»;
