

# Smoke and Fire

Sabrina Carpenter

Our love is running into a burning building  
Our love is scattered ash with a burnt up feeling  
Feel the heat so we started running  
You know you saw it coming  
But the memories are still in my mind  
Burning like smoke and fire Rumors spread like wildfire, I held a strong ground  
But I've been burning down  
Cause it's like fire is all I hear about  
And we are fading out  
Don't wanna turn out the light  
But it's like I'm no firefighter  
I just need to breathe tonight  
So sound the alarm  
And there goes the night Our love is running into a burning building  
Our love is scattered ash with a burnt up feeling  
Feel the heat so we started running  
You know you saw it coming  
But the memories are still in my mind  
Burning like smoke and fire Secrets in a small town, they always get around  
But the flame has been put out  
And I am hearing all the small talk  
They whisper as I walk  
In a house that's bordered up  
So good luck I'm no firefighter  
I just need to breathe tonight  
So sound the alarm  
And there goes the night Our love is running into a burning building  
Our love is scattered ash with a burnt up feeling  
Feel the heat so we started running  
You know you saw it coming  
But the memories are still in my mind  
Burning like smoke and fire Smoke and fire  
Smoke and fire  
Don't you know that  
If there's smoke there's fire  
Smoke there's fire  
Smoke there's fire And now it's over  
I'm getting colder  
And it's the feeling

Of running into a burning building  
Rumors spread like wildfire, I held a strong ground  
But I've been burning down Our love is running into a burning building  
Our love is scattered ash with a burnt up feeling  
Feel the heat so we started running  
You know you saw it coming  
But the memories are still in my mind  
Burning like smoke and fire Smoke and fire  
Smoke and fire  
Don't you know that  
If there's smoke there's fire  
Smoke there's fire  
Smoke there's fire And now it's over  
I'm getting colder  
I'm so tired  
Burning like smoke and fire
