

Smack Down

Thousand Foot Krutch

Get ready for the smack down
Get ready for the smack down
How you gonna react when you put on your back now?
'Cause there's no turnin' back when you're facin' the smack down
Come on, let's kick it, let's all get wicked
Put your hands in the sky for a one way ticket, come on
C-c-come on, everybody gonna start this party
If we turn it to 11 then we can't go wrong
And I'm not tryin' to tell you there won't be a longer road
When it all comes down you'll know just what to do
We're gonna burn this down and keep on runnin'
Eill my time here is through
'Cause when it all comes down I know just what to do
Get ready for the smack down
Get ready for the smack down
How you gonna react when you put on your back now?
'Cause there's no turnin' back when you're facin' the smack down
Come on, let's rip it, let's push that limit
If you don't feel pain then you can't be winnin', come on
They said I wouldn't be nothin', I said stop frontin'
Put the pedal to the metal 'cause the storm is comin'
And I'm not tryin' to tell you there won't be a longer road
When it all comes down you'll know just what to do
We're gonna burn this down and keep on runnin'
Till my time here is through
'Cause when it all comes down I know just what to do
Come on, let's kick it, let's all get wicked
Put your hands in the sky for a one way ticket
C-c-come on, everybody gonna start this party
If we turn it to 11 then we can't go wrong
Come on, let's rip it, let's push that limit
If you don't feel pain then you can't be winnin'
They said I wouldn't be nothin', I said stop frontin'
Put the pedal to the metal 'cause the storm is comin'
Get ready for the smack down
Get ready for the smack down
How you gonna react when you put on your back now?
'Cause there's no turnin' back when you're facin' the smack down
