

Cristalena

[MxPx](#)

Cristalena yeah she's so cool
Cristalena she's out of control
Half the time she don't know where she's at
Cristalena don't know much about that But you know and I know Cristalena
But you know and I know when I've seen her
But you know and I know Cristalena
But you know and I know when I've seen her Cristalena she's in her own world
She's always happy as a little girl
Cristalena's nice unless she's annoyed
Cristalena happens to like boys but not me But you know and I know Cristalena
But you know and I know when I've seen her
But you know and I know Cristalena
But you know and I know when I've seen her Cristalena where'd you go?
Don't even know where you've been
Cristalena won't you stay?
Please don't go away, won't you be my friend? But you know and I know Cristalena
But you know and I know when I've seen her
But you know and I know Cristalena
But you know and I know when I've seen her
