You are still my strongest memory
Whenever I close my eyes I see you clearly
Everytime my heart just skips a beat
Whenever you say my name I need you with me I am so nervous, I've thought for ages what to say
It doesn't matter anyway
You are so ruthless. let me pursue it
You come around and I fall in love. I knew straight away
On that day
I knew straight away (away, away) You are still my strongest memory
Whenever I close my eyes I see you clearly
Everytime my heart just skips a beat
Whenever you say my name I need you with me. You must admit it, you feel more different everyday.
But in such an exciting way
You are the man for me
Me and you ment to be
I would do anything for you. I knew staight away (I knew straight away)
On that day
I knew staight away (I knew staight away) away away You are still my strongest memory
Whenever I close my eyes, I see you clearly.
Everytime my heart just skips a beat.
Whenever you say my name, I need you with me. x2
