

# You Make Me Brave (Solo Version)

**Billy Bragg**

There's a place, a place that I go  
Where I curl in a ball on the floor  
And no one can know And the fear wells up inside  
I'm just falling again  
Feel I'm falling again And you make me brave  
Then you make me brave When the dark and all of the doubt  
Crowds in around me  
And blocks the world out And then I, I see you smile  
And I'm flying again  
Yes, I'm flying again 'cause you make me brave  
Yes, you make me brave What's to come? No one can know  
But I fear for the future  
What it may hold Take my hand, take it today  
Let's not live in the past  
Let's not hide in the past Today, today  
Live for today  
Live for today
