Roll Thru

Sickick

I'll roll thru and I'll blow your mind,
I'll show you, what I do at night,
I'll hold you, while you hold on tight,
Girl don't be afraid to say it sometimes... x2

It's 12am you call me and say you are alone,
"I don't mean to alarm you but no body is home,
You've been sayin' that you want me all to your own..."
You had me at alone, I'm leaving...

Every time you call me I get in this zone,
Picturing your body makin' you moan,
Moan...moan...makin' you moan,
Fallen angel come fall for me...

I need you in my life,
I think you mean to say I need you for tonight,
Well I don't blame you girl 'cause God knows so do I,
You won't be found once you get lost into these eyes....oh.....

I'll roll thru and I'll blow your mind,
I'll show you, what I do at night,
I'll hold you, while you hold on tight,
Girl don't be afraid to say it sometimes..

I'll roll thru,
We don't need a reason....
I'll show you,
Call me and I'm leaving....
I'll hold you,
I know how you're feelin', girl don't be afraid to say it sometimes...
