All the people in the world
Every boy and every girl
Just imagine that we could
It isn't hard to doAll the people in the world
Every boy and every girl
Just imagine that we could
Face up brotherhoodAll the peopleAll the people in the world
Every boy and every girl
Just imagine that we could
It isn't hard to doGive it up
You just got to give it up
You just have to give it up
You just got to give it upGive it up
You just got to give it up
You just have to give it up
You just got to give it up
You got to, got to, give it upFrom the mountains to the sea
Through the valleys follow me
From down below to the way up high
Baby we can touch the skyAll the people in the world
Every boy and every girl
Just imagine that we could
Face up brotherhoodAll the people in the world
All the people in the world
Just imagine that we couldAll the people in the world

Just imagine that we couldAll the people in the world
Every boy and every girl
Just imagine that we could
