

Circuit Us

Driftless Pony Club

You were struck by lightning
Guess what, so was I
Although different moments
Both still apply
An asteroid, bruised you thigh
The resulting shockwave made you limp to my side
I

Can't make you promises
When it's just all random incidents
Try my best to coordinate
The mechanics of, the way we behave

There are places in this country
Where clouds appear, only rarely
Take a chance on your invention
I bet the future's undetermined

There are places in this country
Where clouds appear, only rarely
Take a chance on your invention
I bet the future's undetermined

Circuit us, connect ah ha
Circuit us, connect ah ha ha
Circuit us, connect ah ha
Circuit us, connect ah ha ha
Circuit us, connect ah ha
Circuit us, connect ah ha ha
Circuit us, connect ah ha
Circuit us, connect ah ha ha ha

There are places in this country
Where clouds appear, only rarely
Take a chance on your invention
I bet the future's undetermined
