

Situation

Godsmack

Lying in my sweat, drying my tears
Waiting for you, I am
Making me feel like I don't care
I don't care, yeah This situation
In my head, head, head
Will this situation
Never end, end, end? How can I feel if I can't breathe?
What we once had will never be again This situation
In my head, head, head
Will this situation
Never end, end, end? And I cannot take it anymore I really like what you can give me
But I don't know where I'm standing right now, not yet
And I really think that you can hear me
Why you're not turning this around
I'll never know, I'll never know, I said I'll never know Never, never, never
No, yeah, yeah, yeah This situation
This situation
This situation
Yeah
