Wide Awake

Autopilot Off

I'm breaking promises and breaking you apart
While this constant battle rages in my mind
Over which path to take, how much of this is fate
And how much is just a waste of time?Because I don't know just what I need
Stuck somewhere in the in between
3 in the morning and I wish that I could sleep
But I'm wide awakeMedicine bottle's laying empty on the floor
But I still can't make these headaches go away
More of a bastard than I've ever been before
I'd be better off just bashing in my brains'Cause I don't know just what I need
Stuck somewhere in the in between
3 in the morning and I wish that I could sleep
I'm wide awake, wide awake
I'm wide awake, wide awake, singAll this feels like it's some other life
Doesn't it seem way too dark tonight, dark tonightI'm breaking promises and breaking you apart
While this constant battle rages in my mind
Over which path to take, how much of this is fate
And how much is just a waste of time?I don't know just what I need
Stuck somewhere in the in between
3 in the morning and I'm writing this all down
And I hope it makes it easier somehow
And I hope it makes it easier somehow
