Frantic At the Moscow

InMemory

I saw your kill
The threat was real
Well take cover baby, it's not safe
In villains only
We stab throats
Well take cover baby, it's not safeI'm making love to my styling machine
We're armed and ready, it's not safe
I'm making love to my styling machineStop
You're so pathetic
You're all the same
Go
We'll take it from the top
YeahWhat's that?
It's all new
We make love, we make love, we make love
We're making love to my styling machine
We're armed and ready
Are armed and ready
We're making love to my styling machine
It's all good, it's all good
I make love to my styling machine
Armed and ready
Armed, armed and ready
I'm making
I'm making
I'm making
Armed and ready
Armed, armed and ready
