

Reach for Me

Kirsty Hawkshaw

Ana:

I could fall in love with you
I could fall in love
In my dreams your dreams come true
Say you'll dream of us

Tonight when the bright stars are burning high over Manhattan
All washed out in neon
And hidden from view
But when the power goes out and you look up from Brooklyn
Will you reach for me
Reaching out for you
Oh, will you reach for me
Reaching out for you
Reaching out for you

I can tell you're unprepared
For what will happen next
Nothing now could change my mind
Or make me want you less

Do you want this tonight when the bright stars are burning high over Manhattan
All washed out in neon
And hidden from view
But when the power goes out and you look up from Brooklyn
Will you reach for me
Reaching out for you
Oh, will you reach for me
Reaching out for you

Would you reach for me
I could wait for you
Would you reach for me

Bright stars are burning high over Manhattan
All washed out in neon
And hidden from view
But when the power goes out and you look up from Brooklyn
Will you reach for me
Reaching out for you

Oh, will you reach for me
Reaching out for you
Will you reach for me
Reaching out for you

Reaching out for you
I'm reaching out for you
I'm reaching out for you
