Whenever You Need Me

Nick Cannon

Talk to your girl, dawg
She down for you
Just gotta make sure you down for her
They way stronger then we are
You was, from day one, the feelin I couldn't escape from
Seems like a dream I don't wanna awake from
A lot of things I can't get away from
A lot a stress I just wanna erase em
You da reason why I'm hard at work
You think my job chasin baws n skirts
I ain't got to search baby, nah you're first
See you got this touch that revolve the earth
I know you sweat when I'm out on tour
I was IMX immature before
Lot a broads just step round my hotel door
Couldn't even recall why I go there for
But I was much younger, much dumber
Outta touch, so I blamed my lust on the summer
Crazy, amazingly, you forgave me
Turned around and say to me
Whenever you need me babe,(whenever you need me) just call me name (just call my name)
No matter whatever's wrong, you know that I'll be there (oooooo)
I'm down for you (I'm down) whatever ur going through (awww baby)
Whenever you need me babe, u know that I'll be there
Yo, every man need a rider beside em
To ride em to his Clint, pick em up off the bottom
What he needs, she got em and vice versa
Even tho his life style might hurt her
A phone call's a phone call to a fella
But to women, it falls under the same umbrella
It's trust, honesty, respect, gotta juggle em all, try not to neglect
'Cause if somethin go wrong, it'll be hard to correct
They forgive but never forget
No matter how many diamonds you sit on they neck
And that invisible sex should be invisible next
That's why I hold my whole team down
No matter how much of this world I'm going round
I'm gonna treat you the right way
It always feel good when you say

(Whenever) whenever you need me babe, (you need me) just call me name (just call my name)
No matter whatever's wrong, you no that I'll be there(ooo, ooo)
I'm down for you (I'm down) whatever ur going thru (whatever, whatever)
Whenever you need me babe, u know that I'll be there
Now as soon as the media get a hold of the vocal
They gone try think of the motive, the reason I wrote it
Who the girl on my arm at the movie premiere
You the one in the drop with the wind in her hair
Papparassi watch me, to see who pops don't like me
And that's wherever I might be
So I needa girl to withstand and understand
Stand next to cannon 'cause I gotta plan
And ain't trynna put no weight on ya girl
But it's hard to have a love affair in front of the world
Every time you move, every step you make
Bein watched and possibly video taped
That's why I need a place I can escape
And another soul which my soul can relate
And I probably make a lot of mistakes
But I still need to hear somebody say
Whenever you need me babe, just call my name
No matter whatever's wrong, you know that I'll be there
I'm down for you, whatever ur going thru
Whenever you need me babe, u know that I'll be there
Whenever you need me babe, just call my name
No matter whatever's wrong, you know that I'll be there
I'm down for you, whatever ur going thru
Whenever you need me babe, u know that I'll be there
Whenever you need me babe, just call my name
No matter whatever's wrong, you know that I'll be there
I'm down for you, whatever ur going thru
Whenever you need me babe, u know that I'll be there
