Thinking Of You

Test Your Reflex

I'd like to be, in a room just you and me
We'll talk our eyes to sleep
And when it's over and we part, you'll remain inside my heart
You see I can't forget your face, your face, your faceNo.. No, oh, ohC'mon, my love, it's you I'm thinking of
Each time, we kiss, your hand upon my fingertips and
It's not, that bad, just don't forget what we have
And time, won't mean a thing, cause I'll be thinking of you loveIt's been three months and now you're running circles,
Deep inside my head
When I thought all the love inside of me was dead
So don't think twice my love, oh no, about how much you mean to me
I'll say it one more time, so loud, so clear
You are the only one, the only one that's ever really listened to me
You are the only one, the only one that's ever really mattered to me
So don't you go (Don't you go)C'mon, my love, it's you I'm thinking of
Each time, we kiss, your hand upon my fingertips and
It's not, that bad, just don't forget what we have
And time, won't mean a thing, cause I'll be thinking of youCome now don't worry about the things you'll do next week
For just this once we can pretend, it's you and me
And everything the falls between the lines won't mean a thing
So take my hand, we'll run away
From everything, from everything, from everything from everythingC'mon, my love, it's you I'm thinking of
Each time, we kiss, your hand upon my fingertips and
It's not, that bad, just don't forget what we have
And time, won't mean a thing, cause I'll be thinking of you love
